Subject: Nelson Tunnel/CWRP Site Confidentiality Agreement

Dear Betsy:

Please see the attached confidentiality agreement regarding confidential business information (CBI). The EPA requires that parties sign a confidentiality agreement before the EPA can release contractor's CBI. In other words, if a PRP wants to review supporting cost documentation for the Site, the EPA requires an executed confidentiality agreement. Jerry and I thought it would be a good idea to get this executed before we begin settlement discussions. Please let me know if you have any questions or concerns.

Please also note that the EPA will be sending a General Notice and Demand Letter for the Nelson Tunnel/Commodore Waste Rock Pile Site within the next two weeks.

Thank you in advance.
